Re: Cleveland Heights Municipal Court's Annual Report for 1998

In this, my 1998 annual report, I would like to bring your attention to the following matters.

The stabilization in the number of traffic tickets handled by the court originally noted in my 1997 report continues. While we have had large fluctuations in the number of charges handled in the past (e.g. 16,655 in 1995 and 34,346 in 1996) this year's intake of 26,187 charges varies only slightly from the number handled in 1997 - 24,996. The court's commitment to collecting all fines and court costs imposed continues to maximize available revenue. This year the court took in more than 2.2 million dollars while our operating budget remains well under one million dollars. As a result this court has not had to raise its criminal court costs in over four years.

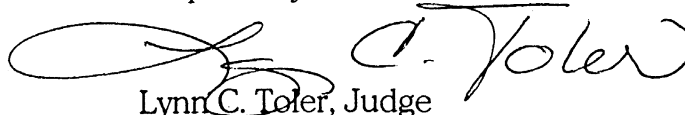

In 1998, the court made a number of technological improvements to its operations designed to facilitate access and expedite its administrative processes. We reviewed, and where necessary, either replaced or reprogrammed all court computer systems to ensure that the court is Y2K Compliant. We have also sought certification of Y2K compliance from all outside entities upon whose computer systems the court may rely. We established a WEB site at www.clevelandheightscourt.com which provides the general public with easily accessible information on the general workings of the court, small claims procedures, waiver fines and costs. We installed a drive up payment system for waivable tickets so that payment can be made from one's car. We are now in the process of establishing Internet and E-Mail capabilities in an effort to make it easier for the public to contact us.

The court also computerized its certified mail processing to facilitate faster and more efficient service of process in civil and criminal matters. In addition, the court has added video arraignment capabilities to its court room which allows the court to arraign incarcerated individuals without physically bringing them to the court room. This process increases court room security and reduces our need to co-opt police officer's time escorting prisoners to and from the court room.

It should be noted that all of these technological advances were paid for from an existing state mandated fund and thus were made at no extra cost to the city.

As always this court continues its efforts to improve its operations every year.

Respectfully submitted,

Lynn C. Toler, Judge

These statistics are compiled from the monthly reports submitted to the Supreme Court of Ohio under Superintendence Rule 12. Multiple charges against an individual as the result of the same set of circumstances or series of acts is only counted as ONE CASE. Individual criminal and traffic CHARGES appear elsewhere in this report.

Reactivated cases are those brought back onto to the current docket when the Court regains jurisdiction over a defendant, such as an arrest on a warrant. There are no re-activated civil cases.

These figures and those on the preceeding page represent the number of criminal complaints and the number of traffic tickets plus parking complaints actually filed with the court during the year 1996. The number of cases filed are on the Supreme Court Report Chart starting this section. The Rules of Superintendence for Municipal and County Courts provide that multiple offenses arising from the same incident by the same defendant be given only one case number and counted only as one case for the purpose of the monthly reports to the Supreme Court of Ohio. This is the basis for the difference between the number of CASES and CHARGES. There are always more charges than cases under this method.
